INTRODUCTION

Purpose

The following pages contain families descended from, or related to John Gritman of Oyster Bay, Long Island and Poughkeepsie, New York. The purpose of this publication is to contact modern descendants who can add to the sheets and make the collection more complete and more accurate.

Arrangement

All family group sheets are arranged in one alphabetical list whether they spelled their name Gritman, Grittman or some other way in the records. There are more than forty different ways the family name has been spelled in the records used to compile this book. See Appendix C.

Each family group is filed alphabetically by the first name of the father. When there are sheets with the same first name they are filed chronologically. If there is a middle initial, these are filed after the single names. Then come the men with middle names. An example follows:

Gritman, William (born about 1662)
Gritman, William (born about 1682)
Gritman, William H.
Gritman, William Ball
Gritman, William Sypher
Gritman, Willie

Scope

A family group sheet has been included for all known Gritman males who married and had families. The relationship to John Gritman has been proved for most families included here. All the others are probably related because they were in Dutchess County at the appropriate dates.

References

The main references used to compile these family group sheets are as follows:

1. Census indexes and census records for 1790, 1800, 1810, 1820, 1830, 1840, 1850, 1880, and 1900 for the state of New York.

2. A few census records for 1860, 1870, and 1910 which have no indexes in the LDS Library in Salt Lake City. I searched page by page as many as I had time for.

JBH

3. Land records and probate records and their indexes on microfilm in the library in Salt Lake City. The only counties searched were those where the Gritmans were known to have lived.

4. Books and family histories in the library in Salt Lake City. These are listed in the bibliography alphabetically by the entry word in the footnotes on the bottom of the family sheets.

5. Letters from some Gritman descendants received by the writer between August 1978 and May 1984.

6. Gritman and Gritmon names in telephone books in some localities of New York, Connecticut and New Jersey between August 1978 and April 1984.

Family Group Sheets

The information on each family group sheet is as complete as could be determined as of May 1984. At the bottom of each sheet is given the source for each item on the sheet. Most of the information is from the LDS library in Salt Lake City and the number of the film or the call number of the book from that library has been included on the family group sheet or in the bibliography.

A question mark following or preceding an item means there is some question but that it is probably true.

There may be two family sheets for the same person. This happens when it could not be proved that they are the same person. For example, a person baptized on Long Island in 1738 could be the same person as one aged 75 in 1809 in Dutchess County but they are considered as two different persons unless there is proof to the contrary.

The writer hopes that many readers will add to these sheets or make corrections if they have proof. Please be sure to give the exact source where you found your information. Send the family group sheet(or a copy)to me at the address below and be sure to include your own name and address.

Appendix

At the end of the family group sheets, the Appendix gives additional information related to the Gritmans.

APPENDIX B

NOTES ON COVER CHART

The cover chart contains most of the male names known to be descended from John Gritman to the present. Some who are not shown are those who died young, those who never married, and those who had no children. No females are given except on my line to show relationship I have to the Gritmans. The generations are not parallel because names had to be spread out on the chart to fit the space available.

III. Census returns and census indexes are not listed in this bibliography because the entries are given completely on the bottom of the family group sheets each time they are cited.

IV. Deeds is used to refer to all types of land records. The number following the entry is the number of the microfilm in the LDS Library in Salt Lake City.

V. Probate or Wills are used to refer to wills, probate proceedings, administrations and all other such records related to deceased persons and their property.

VI. Archives. This entry refers to a collection of family group sheets in the LDS Library. They are filed alphabetically by families and then by the first name of the husband.

VII. IGI. The International Genealogical Index is a collection of names and dates sent to the Genealogical Library in Salt Lake City and arranged by location, then alphabetically by surnames and given names. Formerly CFI.
